

WELFARE OUTCOME MEASURES

Poultry

We use outcome measure data plus previous audit results to ensure these audits are well targeted and that support programmes are put in place for lower ranking farms. Any non-compliances are followed up by the relevant person, looking at immediate corrective action and long-term prevention to reduce the risk of re-occurrence. The data below is from our UK & EU chicken operations.

| 2019 | Poultry |
|---|---------|
| Total farms | 776 |
| Audits/internal checks undertaken % of supply base | 100 |

| | Average % Bird Travel Times | | |
|--------|-----------------------------|---------------------|----------------|
| | UK 2019 | Netherlands 2019 | Poland 2019 |
| 0-2hrs | 0.32% | 0.5% | 10.0% |
| 2-4hrs | 41.72% | 43.0% | 72.0% |
| 4-6hrs | 50.50% | 52.0% | 18.0% |
| 6-8hrs | 7.47% | 4.5% | 0.0% |

| KPI (UK) | TARGET | 2018 | 2019 |
|---|--------|------|------|
| All chicken to be stunned before slaughter | 100% | 100% | 100% |
| All chicken to be cage free | 100% | 100% | 100% |
| All farmers to be farm assured to a recognised scheme | 100% | 100% | 100% |

The above data refers to those animals slaughtered in 2 Sisters UK factories.

| | UKP 2018 | UKP 2019 | EU 2019 |
|---------------------------------------|-------------|-------------|------------|
| % birds grown @ <30g/m ² | 4.62% | 4.82% | 4.12% |
| % birds grown @ 30kg/m ² | 4.51% | 7.67% | 7.2% |
| % birds grown @ 34kg/m ² | 7.41% | 2.41% | 4.82% |
| % birds grown @ > 34kg/m ² | 83.46% | 85.11% | 12.25% |
| % birds grown @ > 39kg/m ² | 0.00% | 0.00% | 70.99% |
