

HEALTH & SAFETY POLICY

At 2 Sisters Food Group we will not compromise on Health & Safety and believe that no one should be hurt as a result of our operations. All accidents are preventable: so remember 'if it's not safe, don't do it'

We will ensure that Health & Safety is at the core of everything we do. Business leaders will implement this policy and give Health & Safety equal priority with all other business activities.

Our people are our most important asset. We will drive a culture of ownership where everyone in the organisation takes responsibility for their own Health & Safety and everyone around them. We will regularly consult with our colleagues to embed this culture.

We will provide a safe working environment for our employees, contractors and visitors. This will be achieved by identifying hazards and reducing their risks. As a minimum our workplace will meet all legal and standard requirements/obligations.

We will audit our workplace to ensure these standards and obligations are maintained.

We will ensure that employees at all levels within the organisation have received the appropriate training, have the right tools to do their job safely and that they understand their own responsibilities.

We will set Health & Safety objectives for our business. These will be communicated openly and will be used to drive continuous improvement.

We will ensure that Health & Safety will be at the forefront of our decision making process and will lead, not follow, in meetings.

“REMEMBER, IF IT'S NOT SAFE, DON'T DO IT”

Ronald Kers CEO

Divisional Managing Director

General Manager
